

## **Elytra launches new sandwich panel brand names**

Elytra launches new sandwich panel brand names. The brands are related to the use of the different core materials:

- Elylite<sup>®</sup>: sandwich panels with polypropylene honeycomb core material
- Elyfoam<sup>®</sup>: sandwich panels with PET foam core material
- Elybond<sup>®</sup>: sandwich panels with a solid fibre reinforced polypropylene core material

These core materials can be combined with different skin materials and thicknesses. Elytra's preferred solutions are based on:

- Steel: metallic coated, organic coated, stainless, enameled
- Aluminum
- Polymer: Curv (self-reinforced PP), Curvtex (glass fiber self-reinforced PP), GFR (glass fiber reinforced PP)
- Others: high pressure laminate (HPL), plastic sheets, ...
